LinuxDiary 7.0

"LinuxDiary 7.0" was a national-level event organized by the Walchand Linux Users' Group (WLUG) at Walchand College of Engineering, Sangli, on 8th and 9th August 2026. The two day event featured four insightful sessions, covering a wide range of topics from the fundamentals of Linux to Linux networking. The event aimed to promote Linux education and foster a strong community of Linux enthusiasts, bringing together learners from beginners to experienced professionals. The event was further enriched by Mr. Suhas Desai, who shared his valuable insights and industry experience with the participants.

To conclude this event on an exciting note and put participants' newly acquired Linux skills to the test, an engaging and competitive activity called "Wargames" was conducted. The activity challenged participants to apply their knowledge of Linux through practical, real-world scenarios while encouraging problem solving and hands-on learning.

Our all 2-days session was very fruitful for me.
after getting every session it's help to know about LINUX

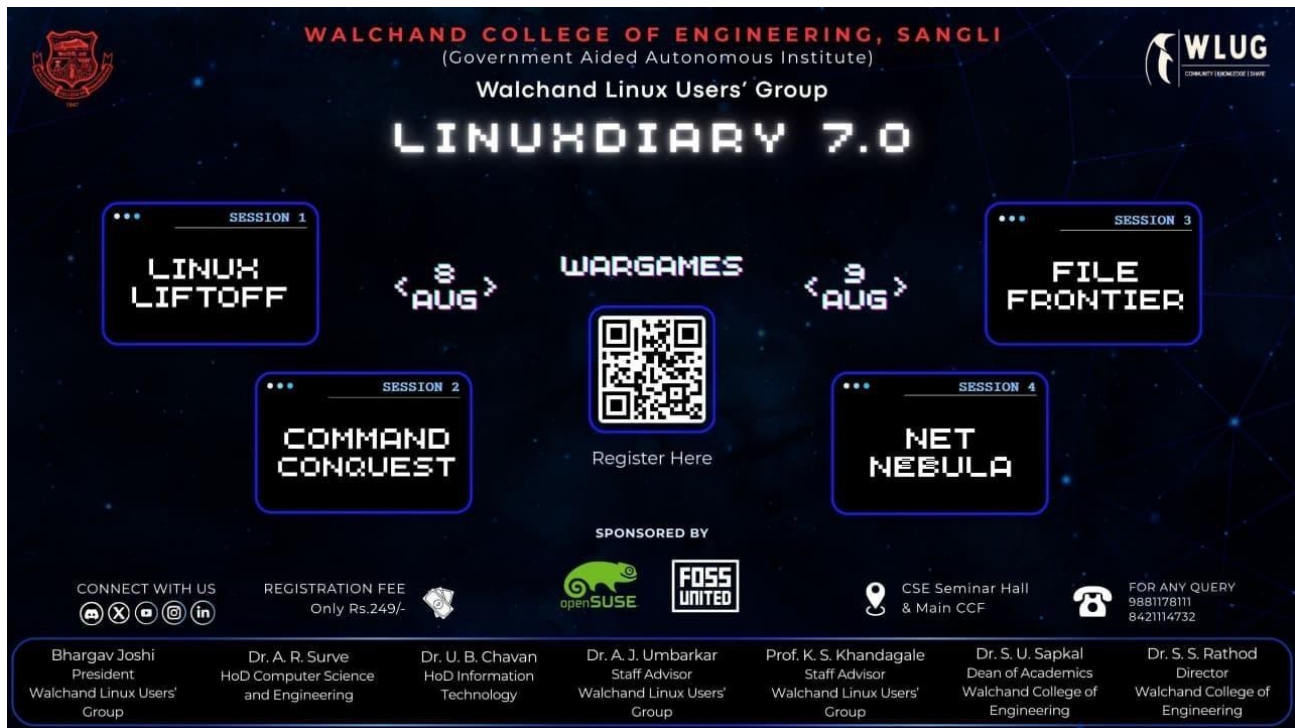

Feedback:

The two day 'Linuxdiary' session was very interesting. There was so many hands on activities. We learnt so many commands in linux, which are useful for us. We get much more knowledge about the linux operating system. Worth it!

Feedback:

All the sessions were very useful and interesting. Learnt many new things in detail, like linux commands file, package management. The practice examples made concept easier to understand. The session was useful & helped me to gain confidence in using Linux

Poster of LinuxDiary 7.0 used for Publicity

The poster for LinuxDiary 7.0 features a dark blue background with a network of white dots and lines. At the top, the Walchand College of Engineering, Sangli logo is on the left, and the WLUG logo is on the right. The text "WALCHAND COLLEGE OF ENGINEERING, SANGLI (Government Aided Autonomous Institute)" and "Walchand Linux Users' Group" is centered. Below this, "LINUXDIARY 7.0" is written in large, white, pixelated letters. The event is divided into four sessions: Session 1 (Linux Liftoff), Session 2 (Command Conquest), Session 3 (File Frontier), and Session 4 (Net Nebula). A central QR code is labeled "WARGAMES" and "Register Here". The bottom section lists sponsors (openSUSE, FOSS UNITED), contact information, and a list of organizers and staff advisors.
