

INDIAFOSS 2025 T-Shirt Design Challenge

Design Guidelines

Keep the Designs anywhere within the safe space of 15.6 × 19.6 in. as shown in the image.

These are the 3 brand colors. But designs can be **not limited** to only these colors.
**Keep in mind when it comes to print some bright colors might come dull. Use CMYK color mode or colors which are print safe*

UNITED BY FOSS

“United by FOSS” Should be included in the design. Either in this same style or any different style according to your creativity

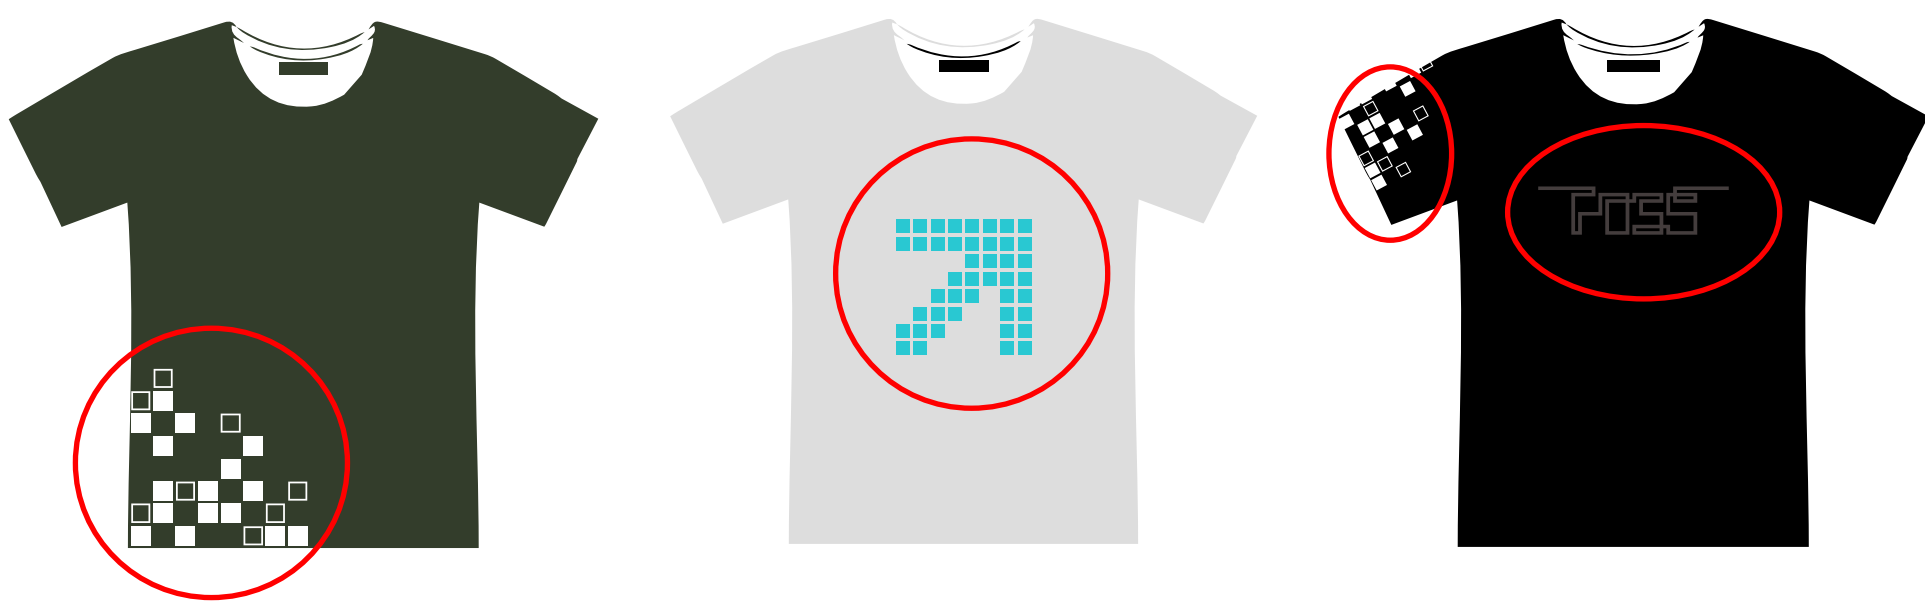

INDIAFOSS 2025 logo need **not** be added. It will go on the sleeves during print.

Vector Designs are preferred. If it’s not vector, the image should have the quality to be resized into the T-shirt’s size.

Place the designs in the given template and submit.

The High-Quality design file will be needed if the design is selected.

Avoid these mistakes

- ✗ Designs outside the mentioned safe space
- ✗ Use of colors which might not come same while printing
- ✗ Designs on sleeves
- ✗ Less Color contrast with background

Submissions

Upload the designs in the forum thread

Evaluation

The top designs after initial filtering will be put for poll for 24 hours on the FOSS united forum.
The design with most votes will be printed for IndiaFOSS Tshirt.
Top 3 designs will be mentioned in FOSS united social media pages.
