Hi Sri,

Thank you for sharing the update.

As requested earlier, do share the minutes of our previous meeting on the <https://forum.fossunited.org>. It will keep all the FOSS United community members in the loop.

Vishal

A. we launched our free cyber security training for university rural 28 kids across the country (by global experts). Next in series are IT where we will work with VGLUG

B. We started 2 projects.

B.1 ONDC SellerApp to benefit rural farmers and small businesses around rayalaseema area. We need some basic funds and may be Solution Architect.

B.2 SMELead Portal to provide affordable yet world class services to msme's with rural employment supporting Make in India and Atmanirbhar programs.

We need basic funding and if possible Solution Architect.

note: we will use and maintain free version of ERPNext for msme customers.

note: B1 B2 will be FOSS based

C. Happy and ready to take over MonSchool and run it as we add below

- for school.kids (samskrtam, bhariya ganitam, sss value based education)

- for university rural kids and rural housewives (free upskilling on cyber security, accounting, IT, Agri analytics, Sustainability etc.) towards demigration

D.1 Our MSME service platter is ready for NPOs or NGOs at cost based rates or grant driven model

D.2 for India SaaS product companies we offer affordable holistic product security as a service (incl privacy, compliance, monitoring, bcp, financial data plus TI and platform security)

Best Regards / Danyavadaha

This is Vijayalakshmi from VGLUG Foundation, I am not able to understand the full context of this mail. Can anyone explain this to me?

Hi,

Are you free to get on the call with them to see how VGLUG can help/guide them or collab?

Telegram id - @vijisulochana

Thanks,
Vijayalakshmi

Apologies your email had a soft SPF fail. We now added to safe list.
We got to see it only now.

0. What is your convenience some time next week starting tomorrow Sunday 14 or Monday 15th

A. Gone through VGLUG...good work on Sangam literature and Localization of FOSS (incl Mozilla) and ofcourse Linux..Will be happy to connect to extend their group to Anantapuramu (our rural office area in AP)

B. Will explore ERP Next for MSMEs

Namaskara

Our CEO <https://www.linkedin.com/in/priti-sikdar/> is a keen author, speaker and trainer with focus on MSMEs towards national priority and also be a good corporate citizen with industry/research/neutral forums

Better we can connect with you or your team to speak

Sure. I'm happy to chat. Are you free on Thursday 2PM? Or propose a time for Friday.

=====

A - raise FOSS awareness and skills amongst rural kids

- via partnership with AIC and ACICs in and around rural anantapuramu, kurnool, tirupati, cuddapah...there are network colleges/universities ..who can benefit..
- this can run along with programs on UX/UI and ISO27k (probono) for rural kids

I've copied [@viji sulochana](https://www.linkedin.com/in/vijisulochana) from VGLUG Foundation who has similar goals. I think you should check out their website and connect with Viji to see if there's any possibly of collaboration or learning from each other.

=====

B - develop social and business apps in FOSS

- <https://www.anvikshiki.in/blogs/post/ESGCoE>
- <https://www.anvikshiki.in/blogs/post/ashtavakrageeta> (to make India Great)
- <https://www.linkedin.com/in/srimata/recent-activity/all/>

Once you land at slide #8

- See the Violet Circle (I am color challenged) Marketing ONDC (National priority project)
- See the Blue Circle, Education LMS; above **Healthcare HIS ERP contribution;**
- See the Red Circle, Sectoral Focus
- Agricommand centre for FPOs in jaivik krishi (NABARD compliant)
- also MSME platter to help with right product fit and automate...audits/risks/assessment/services etc., + (MSME can benefit from any FOSS supported ERP, we can take care of security and compliance)
- Digital India Security...to create an automated platform to complement base FOSS based EDR/SIEM in place

before this at slide #6

- ESG metrics dashboard or database

Do you tech capacity to build apps? We recommend to use [Frappe Framework](https://frappeframework.com) to quickly build web app. [ERPNext](https://erpnext.com), FOSS ERP tool is build on top of Frappe.

=====

C - manage or support or expand MonSchool your training platform

- We are planning to have our LMS on moodlecloud with our trainings probono and also paid (while respecting IP and credit of owners)
- Would can enrich our LMS by including your trainings just like Linux Foundation and Knowbe4 (KevinMitnick) provide SCORM compliant courses in and out
- This help rural kids and us as well...get a neutral view of tech and happenings around the world (not baptised by Vendor stuff)..see the difference between Palatir and Microsoft ;-)
- If you need to support IT, Testing, security and helpdesk/operations of your platform..we can create rural jobs ...locally with kids and rural housewives (educated/experienced)..on transparent cost and fair basis to you and the kids/girls..more like a rural captive operations...this way we can join your ecosystem :-)

We have used [FrappeLMS](#) to build mon school. Check out Frappe LMS and try exploring it and see if it fits for what you're looking for.

=====

D. We also want to present in your monthly meet to get volunteers who can guide rural kids to participate in this program

That would be nice. Please propose a talk in on of our upcoming meetups - <https://fossunited.org/events/timeline>.

note: there was a delay as your email was quanrantined..SPF fail we guess

Hi Sri,

Thank you for reaching out to us for partnering with us. All three points sounds exciting.

Can you tell us about all three programs so that we can see how we can collaborate with you?

In line with our vision www.sssgrameen.in we want to explore partnering with you on use cases

- raise FOSS awareness and skills amongst rural kids
- develop social and business apps in FOSS
- manage or support or exoand MonSchool your training platform

Please dobt ask us for money, but we also welcome grants because we are a socio commercial rural entity

regards
Sri Kumar
